

Training Package Transition Policy

SECTION 1

1. Purpose

1.1 This policy identifies the Institute of Health and Nursing Australia (IHNA)'s framework and requirements for determining Training Package Transition to providing quality training and assessment in accordance with the Standards for Registered Training Organisations (SRTOs 2015). It is required to transition scope of delivery and clients to new Training products in a timely manner.

2. Scope

2.1 This policy applies to all staff, students, and others associated with who are responsible for training in IHNA.

3. Definitions

3.1 Refer to IHNA's Glossary of Terms.

SECTION 2

4. Policy Statement

4.1 IHNA is committed to ensuring clients have access to and attain a qualification that most closely represents the current skill needs of industry. IHNA ensures that it has effective and efficient practices in place:

- a. To monitor currency of training products;
- b. To maintain currency of its scope of registration;
- c. For the transition of training products for the transfer of clients to upgraded Training Package qualifications and VET Accredited courses.

5. Policy Principles

5.1 Industry Currency-Qualification

- a. An AQF Qualification or VET Accredited course being superseded or discontinued is a clear indication that industry needs have changed to the extent that the previous qualification is no longer suitable.

5.2 Transitioning Clients

The need of clients is best served by transitioning clients into replacement qualification as soon as possible:

- a. Where a training product on IHNA scope of registration is superseded, all clients' training and assessment is to be completed and the relevant AQF certification documentation issued, or clients transferred into the replacement qualification, within one (1) year from the date the replacement training product was released on the National Register (www.tga.gov.au) (SRTO Clauses 1.26a).
 - Clients who will complete their learning and be issued a qualification or statement of attainment within the one-year transition period do not need to be transferred to the replacement training product.
- b. Where an AQF qualification is no longer current and has been removed or deleted (i.e. it has not been superseded), all clients' training and assessment is completed, and the relevant AQF certification documentation is issued within two (2) years from the date the AQF qualification was removed or deleted from the National Register (SRTO 1.26b).
- c. Where a skill set, unit of competency, accredited short course or module is no longer current and has been removed or deleted (i.e. it has not been superseded), all clients' training and assessment is to be completed and the relevant AQF certification documentation issued within a period of one (1) year from the date the skill set, unit of competency, accredited short course or module was removed or deleted from the National Register.
- d. No new enrolments or commencements will be accepted into any training product that has been removed or deleted from the National Register.

5.3 Superseded Units in Secondary Training Packages

- a. The requirements of 11 and 12 above do not apply, where a secondary Training Package, still contains and requires the completion of a superseded unit of competency (from a "parent" Training Package) [for example a BSB unit within a CPP qualification]

5.4 Changes to Scope-Superseded training products

- a. If an Industry Skills Council (ISC) deems that a replacement training product is equivalent to the superseded training product, IHNA scope of registration will be automatically updated by the VET Regulator to include the replacement Training product.
- b. If replacement training product is considered "not equivalent" to the superseded training product, IHNA will need to (prior to transferring any client enrolments):
 - i. Apply for the replacement product to be added to scope of registration; and
 - ii. Have the application approved.

- c. One (1) year from the date a training product was superseded, the VET Regulator will remove the superseded training product from IHNA's scope of registration. From this date IHNA will not:
 - i. Enrol or train clients in that training product; and /or
 - ii. Issue a qualification or statement of attainment for that training product (except reprint /replacement documentation for previously issued certification).

5.5 Changes to Scope–Deleted or Removed Qualification

- a. From time to time, ISCs may determine that a qualification will be removed or deleted without being replaced by another qualification. Therefore, no replacement qualification into which clients can be transferred.
 - i. IHNA will determine, in consultation with the client, an alternative qualification to meet client needs.
- b. IHNA will not allow a client to commence training or assessment into a training product that has been deleted or removed, from the date the training product is removed from the National Register.
- c. Two (2) years after a qualification has been removed or deleted from the national register, the VET Regulator will remove the qualification from IHNA's scope of registration. From this date IHNA will not:
 - i. Enrol or train clients in that qualification; and / or
 - ii. Issue a qualification for that training product (except reprint/replacement documentation for a previously issued qualification).

5.6 Changes to Scope–Deleted or Removed Skills Set, Unit of Competency, Course or Module

- a. From time to time, ISCs may determine that a skill set, unit, course or module will be removed or deleted without being replaced. Therefore, no replacement into which clients can be transferred
- b. IHNA will determine, in consultation with the client, an alternative training product to meet client's needs.
- c. IHNA will not allow a client to commence training or assessment into a training product that has been deleted or removed from the date the training product is removed from the National Register.
- d. One (1) year after a skill set, unit or module has been removed or deleted from the national register; the VET Regulator will remove the skill set, unit or module from IHNA's

scope of registration. From this date IHNA will not:

- i. Enrol or train clients in that qualification; and/or
- ii. Issue a Statement of Attainment for that training product (except reprint/replacement documentation for a previously issued Statement of Attainment).

6. Access and Equity

6.1 The IHNA Access and Equity Policy applies (See Access and Equity Policy).

7. Records Management

7.1 All documentation from Enrolment and transition processes are maintained in accordance with Records Management Policy (See Records Management Policy).

8. Monitoring and Improvement

8.1 All enrolment and transition practices are monitored by the Academic Director and National Training Manager, IHNA and areas for improvement are identified and acted upon (See Quality Assurance Continuous Improvement Policy and procedure).

9. Responsibilities

9.1 The Academic Director is responsible for ensuring compliance with this policy.
